Amped AUTOMATION

WELCOME TO

JUNE

Can you believe it's June already? 2021 is flying by and our team is busier than ever with a bunch of exciting projects on the go.

We're thrilled to unveil our Willoughby project this month. Check out our case study and discover more about the smart solutions our team integrated into this impressive new build.

If you've been considering Smart Home solutions for your home or commercial space, get in touch with our team to find out how a fully integrated Smart Home solution can benefit your lifestyle or business.

More than just automation installers, we provide our customers with a comprehensive service that includes consultation, design, project management, delivery and maintenance.

If you'd like to learn more about what we can offer you, give us a call on 9905 7618 to make a time to sit down together, we'd love to meet you!

In the meantime, follow us on Instagram and stay up to date with our current projects. This month we'll go behind the scenes at several locations and you'll get a sneak peek at the Amped guys in action.

PRODUCT HIGHLIGHT:

Security Expert

Ecrittrauure™ Security Expert is an integrated, role-based physical access control solution that unifies security and building management systems. Security Expert is suitable for small, mid and large enterprise environments, and has extensive data handling capabilities that can store millions of credentials in offline memory.

Applications of Security Expert include building access, intrusion detection, ID badging and image verification, visitor security and alarm management.

If you're looking to prioritise your building's security, or you require a complete solution for an existing or future project, get in touch with our team today. We are proud Ecritperts, able to offer our clients this innovative security solution from Schneider Electric.

PROJECT SPOTLIGHT:

Willoughby

Located in the heart of Willoughby East, this modern and inviting home is nothing short of an architectural statement. Bold colours, an abundance of natural light and the ease of smart home solutions enrich this space with the perfect balance of beauty and simplicity. Amped was fortunate enough to be engaged as the smart home consultant and installer, bringing this home to life through a fully integrated smart home design.

Take a look at the complete case study on our website and learn more about the design, products and services the Amped team used to complete this beautiful home.
